KOLTEN EDWARD

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in cloud architecture. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs | Los Angeles, CA (Remote)

April 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Gentlemen's Barbershop (Business Landing Page) – A modern landing page representing an upscale barbershop in Denver. Featuring Google Maps API and parallax for a stunning effect.

Other Projects: Superior StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Full Stack Web Developer at Kolten Edward Consulting | Denver, CO

Jan 2022 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy.

Supervisor at Costco Wholesale | Thornton, CO

October 2017 — October 2022

In my time as Supervisor I quickly became the "go to" guy for computer issues and answers at the locations I worked at. It was during this time I realized I had a deeper interest in solving software development issues as well as cloud architecture.
